

Public Safety Team | *We're being heard.*

We're being heard: "HWY 70 S / HWY 100 is a DANGEROUS intersection!"

Thom Druffel and Lauren Balmer connected with West Precinct Commander Lee A. Kendall in person and by phone about the disregard for the speed limit at this intersection.

We're seeing results.

Read the email below from the Officer on call to Commander Kendall.

From: Gilliland, Mike (MNP) <mike.gilliland@nashville.gov>

Subject: RE: West Traffic Enforcement Request

Commander Kendall,

Officer Sammy Johnson went out to the Deep Wells entrance (6921 Hwy 100) for about an hour yesterday afternoon and again this morning. Below are the results of his enforcement:

Vehicle stops – 18
Warnings – 2
Speed violations – 15
Other violations - 1

We have more good news .

"I've been on HWY 100 yesterday and today. Each day metro police were there. Today I pulled over to thank him. Things are happening." — Lauren Balmer

We have more to do...

Read the following concerns from neighbors.

Narrowly, by inches, avoided a crash yesterday on I-440. Was driving under the speed limit, changing to the middle lane from the fast lane with my blinker on, safely ahead of another car in the middle lane. I was in progress of the lane change to the middle lane when a car from the far right lane slow lane traveling at least 100mph zoomed into the same middle lane, narrowly missing the right side of my car. There are nuts out there that think they are on a race course, especially in the city limits. I am all for cameras on the interstates to put a stop to it.

— Alan Dooley Facebook post / February 20 at 9:38 AM

I live on Percy Warner Blvd. Was anything ever decided about the speeding problem we have?... Dozens of children live on Percy Warner, and the street has become very hazardous for them due to speeding.

— Nick and Cathey Campbell

Our next meeting – 10 am, THIS Saturday, February 25, at Paneras on White Bridge Rd
